

Alaska Measures of Progress (AMP) Computer-Based Assessment Window

Option A is designed to accommodate larger elementary/middle/high schools with single grade classrooms. Option B is designed to accommodate smaller K-12 schools. **However, districts are not restricted to either option; districts may choose to test students earlier than the designated weeks, but may not delay testing for grades beyond the “finish week” and may not test earlier than March 30, 2015.** For example, a school may test grades 3-8 in week 1. A school may not test grade 3 after week 2. EED strongly recommends districts to test all students as early as possible within the window.
